

Name: _____ Date: _____

1° Follow the steps to colour the continents.

1st Colour Europe with a blue pencil.

2nd Colour America with an orange pencil.

3rd Colour Africa using a green pencil.

4th Colour Oceania using a red pencil.

5th Colour Asia using a yellow pencil.

Herbivores, Carnivores and Omnivores

A herbivore is an animal that eats plants, herbs, fruit, roots, etc. Examples of herbivores are horses, cows, rabbits, bees and sheep.

A carnivore is an animal that eats meat. Examples of carnivores are lions, tigers, eagles, spiders (spiders eat other insects) and sharks.

An omnivore is an animal that eats plants and meat. Examples of omnivores are human beings, monkeys and bears.

An eagle

A shark

A spider

A bee

A rabbit

2° Write three examples of carnivores, omnivores and herbivores.

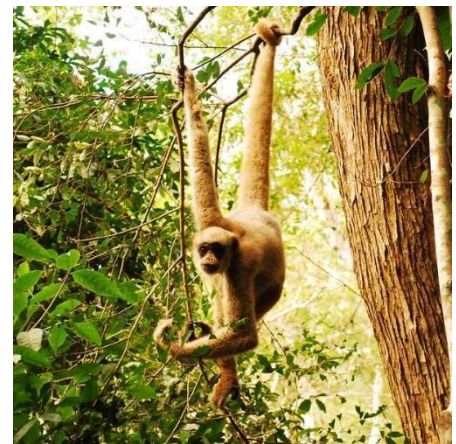

- a) Carnivores _____
- b) Herbivores _____
- c) Omnivores _____

Endangered and threatened animals

Animals can be common or endangered (endangered and threatened are synonyms). Common animals are not going to become extinct, whereas endangered animals are in danger of becoming extinct.

Some of the most threatened or endangered species are:

- a) The Javan Rhino. There are less than 100 alive.
- b) The Spider monkey. There are around 1000 alive.

3° Read the information and answer the questions.

Red panda

They are not closely related to the giant panda

They spend most of their time in trees

...but they like to eat bamboo

DATA

- Endangered
- Up to 10 years
- Pairs
- Up to 65cm
- Herbivore

HIMALAYAS

The infographic features a central illustration of a red panda sitting on a tree branch. To the left is a small illustration of bamboo. At the top right is a globe with the word 'HIMALAYAS' written below it. The background is orange with a pattern of circles.

- a) Where are red pandas native to?

- b) Is the red panda standing on all four legs?

- c) Do these animals like eating bamboo?

- d) Are these animals solitary?

- e) Where do red pandas spent most of their time? _____
- f) Does the red panda have a striped tail?

g) How many animals are shown? _____
